25X1A

MEMORANDUM FOR:

SUBJECT : COMIREX [] Planning Conference

25X1A

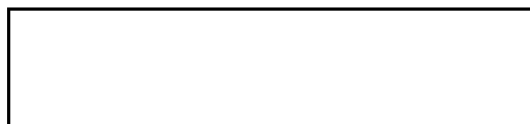

1. As you are aware, the major objective of the conference is to develop the Long Range COMIREX plan covering [] related projects and activities to be accomplished prior to commencement of operations. This will entail identifying what must be done and why, who will be responsible for accomplishment or participate, when the project or activity must commence, the appropriate milestones and a realistic appraisal as to the availability of resources to perform the task.

25X1A

2. To facilitate your preparation for the conference, attached are the initial views of the tasks ahead as currently visualized by the various sub-committee chairmen. Each of the enclosed tasks together with others being prepared by [] will be briefed in detail during the second part of the conference. These draft papers are provided for your review and study prior to the conference in hopes of reducing the time needed for discussion (conference time is quite limited); secondly, allowing your staff to consider any ramifications these projects would have on your related tasks and identifying other [] related projects which should be accomplished and which have been apparently overlooked.

25X1A

3. The attachments are subject to revision by the originators prior to the conference. At the conference each attendee will be provided with the latest draft of each of these tasks/projects together with any other tasks developed in the remaining few days.
